Communication Issues and Solutions

Rahama Saleh · Product management toolkit

Issue	Solution
Role and responsibility confusion	Use the RACI tool to define and validate roles and responsibilities
Stakeholders are unprepared	Use brainwriting to give stakeholders time to better prepare for meetings
Poor product version prioritisation	Use the nominal group technique to prioritise product versions
Inconsistent goals	Use the goal checklist to make sure all goals meet SMART criteria
Product vision needs refining	Use the Six Sigma elevator speech method to develop a product vision
Document management and control	Adopt a naming convention to organise documents
